

# 2011 SEED LIST – VRIJEHOF CLIVIA

## Seed Descriptions by Chris de Vry

### Notes:

1. The breeding season's highlight was having two of the Naude Peach siblings in flower and to be able to do a first line breeding.
2. Also having the opportunity to self a Bonny's Peach BPG02 and to be able to offer this magnificent Peach F1 seed. This is an exciting breeding cultivar to work with and I believe that we will see many show winners sharing these genes.
3. One of our clivia passions concerns the breeding of exceptional peach coloured plants. We also started breeding high quality pastels using primarily peach crossed with yellow or proven pastels crossed with yellow high quality plants.
4. We endeavour to offer you only the top of our breeding with this seed list. Other seed are also available.

Order No	Plant No	Plant Parent	Pollen Parent	Seed Expectation/Comments	Qty seed Packet	Oty Packets	Price per Packet
<b>Wonder Series.</b> Over years past I have made some crosses of which I have been unsure of the outcome. That started the Wonder Series seed - I wonder what this cross will look like in time to come .....							
V1/2011	V00X1	(Appleblossom x Andrew Gibson) ex Mick Dower Orange flower.  <i>Orange flower Sorry no image available</i>	V024 Andrew Gibson 	<b>Wonder VIII.</b> I wonder what a cross between an Appleblossom hybrid bred with Andrew Gibson, and again by Andrew Gibson will produce.	2	10	R100.00
V18/2011	V174	Werner's Peach #2 	Gert Esterhuizen's Champion Yellow 4* 	<b>Wonder IX:</b> Werner's Peach is a well known peach that is bred from seed obtained from Mr. Nakamura. Other breeders had great success to breed some of the most striking and attractive pastels from this clone when crossed with a good yellow. The pollen parent is a beautiful large flowering yellow. This time I wonder if I will be breeding a class winning pastel .....	2	10	R70.00
<b>Seed from Special Plants.</b> These plants were all selected for their individual exclusivity.							
V2/2011	V001	CH Splash 	V024 Andrew Gibson 	Splash is line bred from Andrew Gibson by Sean Chubb.. This is a continuation of the Andrew Gibson line breeding.	2	10	R100.00

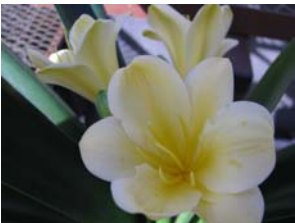

Order No	Plant No	Plant Parent	Pollen Parent	Seed Expectation/Comments	Qty seed Packet	Oty Packets	Price per Packet
V32011	V024	Andrew Gibson 	V001 CH Splash 	Splash is line bred from Andrew Gibson by Sean Chubb.. This is a continuation of the Andrew Gibson line breeding.	2	7	R100.00
V4/2011	V711	V711 Naude's Peach #1 	V718 Naude's Peach #2 	<b>Versi Colour:</b> This is my first release of line bred seed from the rare Naude's Peach. The parents' flowers are versi coloured with a red-brick coloured patches on the outside. The no. 2 NP flower showed less peach colour but a lot of green throughout the flower but with same versi colour markings.	2	10	R100.00
V5/2011	V718	V718 Naude's Peach #2 	V711 Naude's Peach #1 	<b>Versi Colour:</b> This is my first release of line bred seed from the rare Naude's Peach. The flowers are versi coloured with a red-brick coloured patches on the outside. The no. 2 NP flower showed a lot of green throughout the flower but with same versi colour markings.	2	10	R100.00
V9/2011	V026	V026 Jabulani 	Pastel Nice Green Throat	Jabulani is picotee with stunning and vibrant eye catching colour. This year she is showing more green colour than usual. The cross intent to retain the colour from Jabulani and improve the green throat colour. Beautiful	2	10	R80.00

Order No	Plant No	Plant Parent	Pollen Parent	Seed Expectation/Comments	Qty seed Packet	Oty Packets	Price per Packet
<b>Bronze &amp; Orange with Green Centre</b>							
V6/2011	V699	V699 Tienie's Treasure #1 	Emerald Dream 	Tienie's Treasure has bronze with green throat. Coloured florets. The plants is well known for its excellent show and breeding qualities. Emerald Dream is a new and exciting bronze and green throated plant bred out of Bertie's Bronze. The cross should improve the quality of the plant parent's flower colour and over all characteristics. This is a good investment.	2	20	R100.00
V7/2011	V723	V723 Bing Wiese Apricot  <i>No image available</i>	Emerald Dream 	The plant parent is an Apricot coloured flower with green centre bred by the late Dr. Wiese. The pollen parent is Emerald Dream. This should produce siblings with good colour and green throats.	2	10	R70.00
V14/2011	V701	V701 Tienie's Treasure # 2 	V699 Tienie's Treasure #1 				
<b>Special Orange</b>							
V8/2011	V748	Oribi Gorge 	Selfed	This is a magnificent plant that originates from the Oribi Gorge in KZN. Every aspect of this plant is massive. The leaves are broad (>90mm) and tall, so is the size of the umbel with its large number of florets. To appreciate the size of the plant scale the image using the seed pods size 25mm (1 inch) each.	3	20	R80.00

Order No	Plant No	Plant Parent	Pollen Parent	Seed Expectation/Comments	Qty seed Packet	Oty Packets	Price per Packet
<b>Peach – Special Release</b>							
V10/2011	V00x	V00x BPG 02 	Selfed 	<b>Bonny's Peach:</b> This is a once off release of Bonny's Peach 02 F1 that came as a result of transporting the plant over a long distance. The plant is a clone of Bonny's peach No 2 that were intended for sale on the Clivia Auction in Cape Town last year.	2	15	R200.00
V11/2011	V734	V734 BPG01 	BPG02 	<b>Bonny's Peach:</b> This is a crossing of two clones of the Bonny's Peach Group BPG02 is the plant that Forryhill's famous peaches are bred with.	2	15	R100.00
V12/2011	V022	V022 Poor Man's Peach 	Y249 	This a lovely example of <b>Poor Man's Peach</b> flowers. It is pollinated with a exceptional good yellow bred by Nick Primich to improve the size and overall quality of the PMP. This PMP may only be a single allele and some of the progeny could possibly flower therefore yellow.	3	10	R100.00
V13/2011	V340	V340 Forryhill Peach 	Chubb's Peach Princess 	Both of high quality peaches should produce progeny with good colour.	4	10	R80.00

Order No	Plant No	Plant Parent	Pollen Parent	Seed Expectation/Comments	Qty seed Packet	Oty Packets	Price per Packet
<p><b>Poor man's Peach.</b> Originally bred by Nick Primich these Poor Man's Peaches display a variety of colour that ranges from light Peach to dark Peach to Watermelon – all sharing the distinct characteristic that the colour of the flowers darken as the they age. The Seedlings show no pigmentation ('green stemmed'). Poor Man's Peach F1 is bred by pollinating a habitat plant called Wild with good quality yellow miniata. Some percentage of the F1 seedlings is un-pigmented. A high percentage of F2 progeny are un-pigmented. Poor Man's Peach is Group I yellow compatible.</p>							
V15/2011	V036	V036 Poor Man's Peach 	PMP #17 	Line breeding two selected PMPs. This crossing should produce excellent colour peach	3	10	R100.00
V16/2011	V332	V332 Poor Man's Peach #4 	PMP #17 	Line breeding two selected Poor Man's Peach plants. This crossing should produce excellent colour peach.	3	10	R100.00
V19/2011	V749	V749 Poor Man's Peach 	Poor Man's Peach No 111 	Line breeding two selected Poor Man's Peach plants. This crossing should produce excellent colour peach on the darker side of peach colour.	3	10	R100.00
<p><b>Peach Colour Miniata.</b> A variety of peach coloured miniata are offered.</p>							
V20/2011	V353	V353 Gail's Peach 	selfed	<b>Gail's Peach</b> is a lovely and well known peach with good colour and flowers. The plant is a clone and was selfed.	3	10	R100.00

Order No	Plant No	Plant Parent	Pollen Parent	Seed Expectation/Comments	Qty seed Packet	Oty Packets	Price per Packet
V21/2011	V542	V542 Caramel Peach 	BPG02 	<b>Caramel Peach</b> is bred by Charl Malan and has a vibrant peach colour. Crossing this with Bonny's Peach BPG02 should help to improve the shape of the florets as well as the plant itself as BPG02 has proven itself dominant in breeding.	2	7	R100.00
V22/2011	G001	Mordaunt Peach 	Selfed	<b>Mordaunt Peach</b> bred and named by Nick Primich. This is one of Nick's best bred peaches. The plant produced a full umbel wit 17 or more florets, good peach colour and a magnificent plant structure.	3	15	R120.00
V24/2011	Y721	Y721 Cameron Peach 	Cameron Peach #1 	Line breeding of two good Cameron Peach group plants.	4	10	R100.00
<b>Pastel Coloured Miniata.</b>							
V26/2011	V580/591	V580/591 Vco Gold strain 	FH Pastel 	Combine the characteristics of two superb plants: a Vico Gold strain and a Forry Hill Pastel that were bred from Bonny's Peach, and we may produce show winners . A good investment.	3	10	R100.00
V27/2011	V586	G. Esterhuizen Yellow 4 star 	FH Pastel 	The plant parent is a yellow miniata that were bred by C Lotter. Combine the characteristics of two superb plants: a Lotter Yellow strain and a Forry Hill Pastel that were bred from Bonny's Peach, and we may produce show winners . A good investment.	4	5	R100.00

Order No	Plant No	Plant Parent	Pollen Parent	Seed Expectation/Comments	Qty seed Packet	Oty Packets	Price per Packet
V28/2011	V740	Y325 Yellow 	FH Pastel 	Y325 is the yellow that I am currently line breeding to provide more compact plants with broader leaves. Y325 produces excellent flowers. Combine these characteristics with a Forry Hill Pastel that were bred from Bonny's Peach, and we may produce show winners . A good investment.	4	5	R100.00
V29/2011	V729	V729/730/731 Chubb's Pretty Pink 	NP Peach 	Chubb's Pretty Pink strain pollinated with a high quality peach bred by Nick Primich. This type of combination has provided some interesting coloured Pastel flowers by various breeders.	3	10	R80.00
V30/2011	V671	V671 Apricot Cup 	Y325 Yellow 	Apricot Cup is a well know apricot coloured and cup shaped flowering miniata that has performed well on clivia shows. Combine these characteristics with my Top, high quality yellow to produce good pastels.	4	10	R100.00
<b>Pink Flowering Miniata.</b> Emmi Wittig's Pink produces the purest of pinks.							
V31/2011	V184	Pi 8 	Pretty Pink 	The object with this cross is to line breed the Emmi Wittig Pink genetics to produce pure pink.	4	10	R100.00

Order No	Plant No	Plant Parent	Pollen Parent	Seed Expectation/Comments	Qty seed Packet	Oty Packets	Price per Packet
V32/2011	V185	EW Pink orig. clone 	Dream Pink Pi 09 	The object with this cross is to line breed the Emmi Wittig Pink genetics to produce pure pink.	4	10	R100.00
V33/2011	V325	V325/7 Ndwedwe Fantasy x Pink Princess strain 	Pretty Pink 	The object with this cross is to line breed the Emmi Wittig Pink genetics to produce pure pink.	4	10	R100.00
<b>Red Miniata</b>							
V34/2011	V530	V530 Pine's Red 	selfed	An excellent dark red coloured miniata that was selfed.	4	5	R100.00
<b>Yellow Miniata</b> We are always breeding better yellow strains.							
V35/2011	V589	V589 Vico Gold strain 	G. Esterhuizen Yellow 4 star 	This is a cross between a Vico Gold strain with good quality colour and a beautiful yellow bred by C Lotter to improve the size and quality of the flower.	4	5	R80.00

Order No	Plant No	Plant Parent	Pollen Parent	Seed Expectation/Comments	Qty seed Packet	Oty Packets	Price per Packet
V36/2011		Y325 F2 Yellow 	G. Esterhuizen Yellow 4 star 	Y325 was originally bred by Nic Primich. It is a superior yellow and I have been breeding this strain to be more compact. This is a cross is with a good quality colour and a beautiful yellow bred by C Lotter to improve the size and quality of the flower.	4	5	R80.00

# Clivia *4U* Seed List January 2011

## Seed Descriptions by Ernie Hobbs

**Notes:**

5. Last season presented an exciting new plant by the name 'Emerald Dream'. This plant, owned by Willem van der Merwe, was bred from Bertie's Bronze and is in some aspects totally different to Bertie's Bronze. Also a compact plant, it shares the same bronze colour with green throat as Bertie's Bronze, its floret shape differs having more reflexed and broader tepals. It is able to be self pollinated and produces heaps of pollen that will make it a sought after breeding plant. A number of Emerald Dream's clones exist today.
6. At this stage we need to point out that it will still take some time to see Emerald Dream's progeny as we have not had them in flower yet.
7. Ernie Hobbs decided to use the pollen available with his plant's twin umbels to produce these exciting crosses that he offers this list.

Order No	Plant Parent	Pollen Parent	Seed Description	Qty Seed Packet	Qty Packets	Price per Packet
E1/2011	C4U561 Emerald Dream 	C4U561 Emerald Dream 	Newly registered clone bred from Bertie's Bronze. Stunning plant with bronze flowers and green throat – a must have.	2	10	R120.00
E2/2011	C4U114 	C4U561 Emerald Dream 	Plant parent bred by the well known Athrie Wessels. This hybrid has the potential to be a winner..	3	9	R60.00

Order No	Plant Parent	Pollen Parent	Seed Description	Qty Seed Packet	Qty Packets	Price per Packet
E3/2011	C4U123 YN Orange Daruma <i>Sorry no image available</i>	C4U561 Emerald Dream 	Plant parent a real Daruma. Expect outstanding florets. The best.	2	10	R100.00
E4/2011	C4U134 Belgium Hybrid 	C4U561 Emerald Dream 	Plant parent is a Belgium hybrid that has flowered at 3 year. All shades orange flowers. Huge umbels. These seed crosses promise to 'stun you' and take your breath away.	3	8	R60.00
E5/2011	C4U139 Belgium Hybrid 	C4U561 Emerald Dream 	Plant parent is a Belgium hybrid that has flowered at 3 year. All shades orange flowers. Huge umbels. These seed crosses promise to 'stun you' and take your breath away.	3	10	R60.00
E6/2011	C4U142 Belgium Hybrid 	C4U561 Emerald Dream 	Plant parent is a Belgium hybrid that has flowered at 3 year. All shades orange flowers. Huge umbels. These seed crosses promise to 'stun you' and take your breath away.	3	7	R60.00
